# AI Model Limitations

## Understanding AI Model Input Constraints

### 1. Introduction to the AI Model

- The assistant identifies itself as an **AI model** (मैं एक एआई मॉडल हूँ).

### 2. Core Limitations of the AI Model

- **Direct Media Access:** The AI model **lacks the direct ability** (मेरे पास सीधे... क्षमता नहीं है) to:
  - **Watch YouTube videos**  (सीधे YouTube वीडियो देखने).
  - **Process their audio**  (उनके ऑडियो को प्रोसेस करने).

### 3. Consequence: Inability to Provide Transcripts

- **Result:** Due to these limitations (इसलिए), the AI **cannot provide** (प्रदान नहीं कर सकता) the **full transcript** (पूरा प्रतिलेख) of a video.

### Key Takeaway

- This AI model cannot independently interact with or extract information directly from video or audio content. It requires pre-processed text input.

```
